

“Many of our adversaries lack the ability to confront our forces physically, choosing instead to employ virtual weapons with potentially devastating effect. We must take full advantage of these technologies, building our own capabilities to operate in cyber-space with the same level of skill and confidence we enjoy on the land. We will either adapt to this reality or risk ceding the advantage to future enemies”.

CSA General Raymond T. Odierno

**CYBER MISSION
UNIT
(PROVISIONAL)**

Are you an IT professional who can rise to the challenge of cyber security threats on a daily basis, stopping attacks dead in their tracks? Then the 7th Cyber Protection Teams may be for you.

WHAT IS A CYBER PROTECTION TEAM?

Cyber Protection Teams (CPTs) conduct global cyberspace operations to deter, disrupt, and defeat our adversary's cyber-space operations, and defend the United States through specialized Cyber support missions.

Cyber Protection Teams consist of dedicated defensive operators, analysts, planners, and leaders who conduct operations to protect specified missions or national assets in and throughout cyberspace. Our teams are prepared to rapidly evaluate, and act in response to unexpected and dynamic cyber situations. The Protection Teams are prepared to defend the nation in response to hostile action and imminent cyber threats.

DO YOU HAVE WHAT IT TAKES? WANT TO KNOW MORE?
